Project #750: Friendship Bracelets!

(By Kids Care Preschool)

- Supply some easy to thread larger beads.
- Cut some plastic **Stretchy** threading string for the size of the child's wrist. Do not make this too long to avoid a choking item as well as waste of the plastic threading materials. Stretchy threading material is best.
- Tape one end of the plastic threading string to a plastic plate.
- Encourage the children to choose the colours they like and as many or as little beads as they like.
- Try naming colours along the way.
- What are the Beads shapes could also be a subject.
- Watch your friends as these are friendship bracelets!
- When the child is done threading, measure this around the child's wrist and tie the bracelet to fit.
- Children may now wear this if they like.

Song: "The more we get together" (actions can go with this song)

The more we get together, together, together.

The more we get together, the happier we'll be.

Because your friends are my friends and my friends are your friends.

The more we get together the happier we'll be!

Try naming names with the song
