

## **Ann's Creative Corner**

### **Project #755: Thanksgiving Horn of Plenty!**

- Provide a photo copy page of a Horn of Plenty Shape.
- Or provide a construction paper shape of the Horn of Plenty.
- Add some cut out food shapes to your Horn of Plenty.
- Colour the pictures of the fruits and vegetables in you photo copy prints if you are using them.
- Use a magazine of calendar photos of Fruits and Vegetables to place in your Horn Of Plenty if you like.
- Children may like to cut the magazine picture themselves. It is okay if they are bits and pieces of the pictures as it is at the child's level and in their eyes!
- Try using Bingo Dabbers to create food design. This can be fun and easier for young Toddlers.

#### **Activity: "Grocery Store"**

Set up a Housekeeping Center with a "Grocery Store" Provide pretend money, cash registers and bags or baskets for Shopping! Have some play foods to buy.

Another option is to use some real fruits and vegetables. After shopping, think about what you can make with your purchases!
