Project #763: Spooky Houses and Witches Scenes!

- Cut out some wavy or off centered pieces of black paper.
- Place these together to form a spooky house shape.
- Add details as you like using drawings or stickers and other shapes.
- Use some natural fibers such as dried leaves from outdoors.
- Use some stretched cotton to look like ghosts or webs.
- Try using some liquid non toxic white glue to squirt on as this will look great when dried.
- Add some stars and the moon to your sky if you are making a mural.
- Possibly the children may like to add a spooky black cat or other costume type ideas to the project!
- Do a group project on a poster board.

Song: 1 little, 2 little, 3 little Witches!
