Project #764: Spiders and Spooky Trees!

- Use your hand print to make a spooky spider from paint!
- When the pain is dry, add some details such as the eyes of your spider.
- Make some spider webs by squirting liquid non toxic white glue onto some waxed paper.
- This creates the spider web look.
- Add some stickers of spiders to this.
- Make a spooky evening tree scene with some glued on tree shapes. Add some spiders or other creatures to this.
- Maybe there are some ghosts in the trees if you use some stretched cotton balls.
- Add some sku detail as well!

Activity: Walking in your neighborhood!

View your neighborhood area. Plan your walk and if you decide to :Trick or Treat, be safe. Talk about safety, Wear reflective clothing. Hold hands. Stay with a Group. Do not eat any candy or other items unless thoroughly checked by an adult. The items must be professionally sealed and not unwrapable and rewrapped for example.
