

Ann's Creative Corner

(By Kids Care Preschool)

Project #768: Circle Art!

- Cut various sizes of circles out of various colours of construction paper.
- Provide a popsicle stick or larger flat stick.
- The children may glue the circles together in ways that they like to form their own creation.
- Draw or colour the creation as they like.
- Add some facial features so this may be a puppet such as a pig, dog, cat etc.
- Colour your stick if you like
- Tape or glue the stick onto the shape or animal you created.
- Add stickers, tissue paper, or other material that may enhance your puppet project.
- Try some cotton and sparkles.
- Add some shapes and tails if you would like to make an animal.

Activity: (Puppet Show)

Children may like to use this creation in a puppet show. Or they may like to use it as a toy to play with. This encourages speech and social interaction with friends and family!
