Project #779: Hand Print Reindeer!

- Paint the child's hand with Brown Non Toxic Liquid paint.
- Press onto construction paper.
- Let it dry briefly while you prepare some paper, ribbons, sticker, cotton, wool and other items that you may want to use to decorate your reindeer!
- When the reindeer is done, you may want to make a snowy scene around it.
- Try making a sleigh if you like.
- Add some evergreen trees by drawing or painting with a QTip.
- For younger Toddlers, they may like stickers and small bingo dabbers.
- Crayons and felt markers may be used.
- Try some pastel markers or chalk.
- Cotton can be glued on for a snowy scene. Stretch the cotton to make it lighter and also saves on waste.
- Sparkles for stars!
- Star Stickers!

Song: "Rudolph The Red Nose Reindeer"

Please look up the words as it is quite a long song to practice.
