Project #781: Christmas and Holiday Cards!

- Create Special cards using some old Christmas or Holiday Cards.
- Cut the main pictures you like from old cards.
- Calendars and magazines may also be used for Christmas and Holiday type pictures.
- Cut out what you like.
- Glue this onto a folded piece on construction paper.
- Your pictures can be on the front of the card as well as some could be in the inside of the card
- Leave enough room in the card to add To: _____ as well as From: _____
- Children may like to write Love from as well. If they can assist in printing their name, that would be great!
- Another idea would be to make a handprint inside the card or trace the child's hand for the card.
- Add other designs with sparkles, shiny paper, stickers etc.
- You may also like to use some shapes of trees, stockings, bells or other Christmas and Holiday ideas!

Activity: Mailing the cards or making your own mailbox!

If you would like to make a mailbox, use a tissue box and decorate in a festive fashion. Cards may be slotted into the center for family and friends. Or go to the postoffice with your children to buy stamps and mail them!
