Project #793: Chinese Dragons and Masks!

- Supply some colouring pictures of various dragons
- Mask a dragon mask.
- Use a print of a dragon mask.
- Glue this onto a piece of red construction paper.
- Cut holes in the eye opening area.
- Place some tape on either side of the mask and punch a hole on both sides.
- Attached some string or ribbon through the holes as this will be the "Tie" for the mask
- Children may colour in the mask details as they like
- Tissue paper for some details would be nice for the mask.
- Try using sparkle glue to decorate the mask.
- Stickers are also another idea.
- Streamers like ribbons or garland could be added.

Activity: Dragon Parade. Wear your masks and create a Parade with some Chinese music!
