### **Project #797: Woven Valentines!**

- Cut a large heart shape.
- Fold lengthwise.
- Cut some slits into this from the fold area to close to the end. Do not cut through.
- Open this up and your heart should have slits in it for weaving.
- Cut some thin strips of two contrasting colours of paper.
- Weave the first strip through going over and under.
- The next strip should be a different colour.
- Weave this strip through going over and under starting with the opposite slot of the first woven strip.
- Continue this until many strips are woven through.
- Trim the edges.
- Glue the edges in place or tape the edges in place.
- Use a hole punch for the top of your woven valentine if you wish to hang it up!
- These woven valentines may also be decorated with sparkles, stickers and drawings!

#### **Books:**

Mouse's First Valentine.

Clifford's First Valentine.

Guess How Much I Love You.
