Project #820: Clouds, Sun and Rain!

- Cut out various shapes of clouds.
- These clouds can vary in colour from white to shades of grey for when the rain is ready to drop.
- Cut out circles for the sun. You may like to draw the sun rays.
- As a group project, you may like to have a poster board for you and your friends and family
- All participants can contribute to the mural by gluing on the items they choose.
- Try to have a top, middle and bottom as you are creating the sky, land, and possibly water such as a stream.
- When you are done the basic paper part, think about some texture to add.
- These could be cotton for clouds, tissue paper for some grass or flowers.
- The sun could have gold sparkles.
- Trees, if you like to make some, could have bark pieces that you may find outdoors.
- Add rain drops if you like.
- Make a rainbow if you have the sun and the rain to create a rainbow!

Songs:

“Rain is falling down, splash”

“Singing in the rain”

“You are my sunshine”
