Project #816: Bunny Headbands!

- Cut long strips of poster board or other strong paper. These should be about 2" or 5 centimetres wide and long enough to wrap around your child's head.
- Create some bunny shaped ears with the same paper.
- Staple or glue these bunny ears onto the open strip of paper.
- Cut out some inserts of pink for the ears if you like,
- Children may decorate this project with colouring, stickers, glueing shapes etc.
- Add some decorative sparkles with sparkle glue.
- Tissue paper would be a nice accent or textured materials.
- If you would like to add some cotton to the ears, stretching cotton balls so the cotton is thin and soft would look good for the ears. This could also be used for the headband.
- When you are done, measure the band on your child's head circumference and tape together or use a stapler.
- Tape would be best as non scratching!

Activity: Easter Party Picnic!

Set up some picnic blankets and some tasty foods. Try to use most healthy foods such as boiled eggs, fruits and vegetables!
