

Ann's Creative Corner

Project #828: Fresh Mother's Day Flowers!

- Purchase some small flowering bedding plants.
- Provide a small plastic pot/cup or paper cup and a coffee filter.
- Place the bedding flower plant into the cup.
- Children may decorate the coffee filter with felt markers.
- Cover the cup with the flower in it by placing it into the center of the coffee filter. The coffee filter should have a piece of double sided tape in the center to secure the place in the pot.
- Wrap a ribbon around this and make a bow!
- Alternatively you may like to use an elastic band or a pipe cleaner. Pipe cleaners can be secured easily onto the pot with the coffee filter by twisting them tightly!
- Coffee Filters may also be sprayed with some light perfume before attaching to the pot or cup.
- These can also be made with biodegradable pots that can be purchased in the store. These can then be planted in your garden or in a larger pot for the patio.

Activity: Mother's Day Picnic!

Prepare some snacks and bring a blanket outdoors. Bring your potted Flower/s with you. Enjoy the atmosphere. Sing some Mother's Day songs!
