Project #829: Coffee Filter Flowers!

- Provide Coffee filters.
- Children and adults can use felt marker of various colours to colour the filter any way they like.
- Spray the coffee filter lightly with water from a spray bottle.
- Fold the filter.
- Press and hold for a few minutes.
- Open the filter up to see the beautiful colourful blended colours.
- Let this dry completely.
- Next fold it again and trim the edges in a wavy or sharp snips out of the filter.
- Open this again to see your new flower shape.
- Make more than one.
- Place them on top of each other to "Layer" theme.
- Pinch together in the center.
- Secure with tape.
- Or place a pipe cleaner or straw into the center and tape securely in place.
- Spray these with a light perfume or shake some scented powder on them,

Activity: Display your "Flowers"

Think of various ways to display your paper flowers. They could be placed in a vase, placed on a string as a mobile or many other ideas to decorate your home.
