Project #838: Ice Cream Art!

(Kids Care Preschool Project)

- Cut out paper cone shapes.
- Cut out various colours of Ice Cream Shaped circles.
- Children may glue the "Ice Cream" to the top of the cone.
- Perhaps they would like to make some large and some small Ice Cream cones.
- They may like to glue some onto construction paper.
- Think about making a mobile of ice cream by hanging them from a straw, stick or pipe cleaner.
- Add some texture to the ice cream using various other paper such as tissue paper. This could add some colours and texture.
- Draw some criss cross lines onto your cone.

Activity: Ice Cream Stand

In your children's play area, create an ice cream stand. If you have the real props like toy cones and ice cream, please set it up. Or you may use your paper ice cream art. Also an idea is to use a paper cone as a prop with styrofoam balls as ice cream.
