Project #850: School House!

- Provide shapes to create your School.
- Focus on building a School with a playground.
- Glue your shapes onto a piece of paper to form your School House. Provide Felt markers, pencils and crayons.
- Add doors, windows, stairs, and other details.
- Add a playground with more paper or draw a playground.
- Use some stickers for the play structures for your school playground.
- Add some simple trees and flowers by drawing them.
- Try some stamps.
- Add some children playing in the playground. These could be stick people drawn by hand or stickers.
- Remember to use some texture such as sand for the sandbox and possibly green tissue paper for the grass.

Activity: Visit a School

If you have the opportunity, visit a School. Talk to the Staff. If you can't do that, spend some time walking and viewing some schools.

Read books on schools.
