Ann's Creative Corner
Project #857: Remembrance Poppies!

- Provide a circular shape such as a paper plate.
- Cut the centre out of the plate.
- Cut out red poppy shapes.
- Provide small black paper circles to glue onto the center of the red poppy shapes.
- To make your poppy wreath, glue the poppy shape onto you wreath shape.
- You may want to provide a 3D look by adding some red tissue paper to your poppies.
- Provide magazine pictures or calendar pictures of real poppies.
- Make larger poppy by cutting out 4 flower petals from red paper.
- Children may glue these onto a black circle.
- Turn the poppy over to see the right side of the poppy.
- Add a small green circle to the center of the black circle.

Activity: Go on a poppy walk. You may find poppies in fields or in gardens along your walk. Also if close to a shopping area, you may see people selling poppies as a donation. If the children are old enough to understand you may like to talk about how the veterans saved our country in war times.
Read: **Poem:** "In Flanders Fields"
Books and Magazines "View the pages" talk about what you see.
