Ann's Creative Corner

Project #858: Wind and Rain! (by Kids Care Preschool)

- Create some shapes such as clouds, wind, rain and umbrellas.
- Children may use these shapes on a collage paper.
- Provide some magazine or calendar coloured pictures to add to your collage.
- Use an umbrella shape and add some lines, colours and raindrops to it. Use some paint.
- You may like to glue the umbrella on a piece of construction paper so the children may add falling raindrops and other details.
- For wind and rain, use the cloud shapes, rain and some blowing type lines or stickers with blowing lines.
- Try using some nature items for your project/s. These could be some slivers of pine needles and some small leaves.
- Look for the dried leaves and crunch them into small colourful pieces to add natural details to your project.

Activity Songs:

1."*Windy Weather*"
Windy weather, windy Weather (everyone in a circle and lifting arms)
When the wind blows we all come together. (everyone twirl into the center of the circle)
2. "*Singing in the Rain*"
3. " *Rain rain, go Away*"
